And let no man be deceived: if the native whites are compelled to aban-don certain Southern localities on account of uninstructed colored predominance in local administration, the Yankee, or any who is studious of thrift, will not take their place. Only a few sharpers, and the vultures in search of political carrion, will be found there. But this alternative of the "negro problem" is not likely to be adopted. Hardly soy party is ready to go into history with such a policy for, if it tripped as it such a policy, for, if it tripped, as it might, it would be bad for such party. It is the teaching of all his

Formerly it was a current epeculation that the blacks would drift toward certain states in the south, which would pass under colored control in

all respects, to the exclusion of the whites. This, however, is not likely to take place, except by interference of the General Government. If,

under the pretext of a free ballot, the

bayonet is resorted to by any party in power at Washington, and certain States in the South are again brought

under the control of ignorant masses led by political adventurers, Southern

society may be forced into a different

form from that which new prevails.

Under the continuance of such a policy, if it could be maintained,

certain states might become exclu-

sively colored, and society therein

sink toward a form of sami-barbariam.

This self-assertions is a necessary condition of freedom, and its maintenance. There is no such thing as freedom under exotic tutelage. It a people who are numerically in the majority can only proved the self-based of the self-based numerically in the majority can only be secured in their political rights by national troops, then do such people illustrate political sertdom in pecoming the tools of the party in power, and freedom becomes an abortion by the mathed used to abortion by the method used to

secure it. The problem, then, is to be determined on the presumption that local self-government in the South shall be in the hands of those who are competent to direct it; and the existing forces, under which the South has multiplied so rapidly in population

during the last ten years, shall con-

tinne to operate. - Popular Science

## Rescued from Death.

The following statement of Wm. J. Coughlin, of Somerville, Mass, is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNG followed by a severe cough. soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there he doctors said I had a hole in my left lung as big as a half dollar. I expended over \$100 in doctors and medicine. I was so far gone at one time a report went round that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I com-menced to feel better. My hope, once dead, began to revive, and today I feel in better spirits than I have the past three years. "I write this hoping you will pub-

lish it, so that everyone afflicted with diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be con-vinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost JEWELER AND OPTICIAN, entirely disappeared and I shall soon be able to go to work." Sold by all druggists.
